## Contents of Volume 24

Branched-pore model applied to the adsorption of basic dyes on carbon . . . . . 1
G. McKay and B. Al Duri (Belfast, U.K.)

On axial dispersion in packed beds with fluid flow. . . . . 15
E. Tsotsas and E. U. Schlünder (Karlsruhe, F.R.G.)

Kinetics of adsorption of phenol and indole from aqueous solutions on activated carbons . . . . . 33
M. Friedrich, A. Seidel and the late D. Gelbin (Berlin, G.D.R.)

Mass transfer between a moist granular bed and a binary vapour mixture flowing through it . . . . . 39
F. Heimann and E. U. Schlünder (Karlsruhe, F.R.G.)

Model of gas flow above a bubbling fluidized bed: prediction of splash zone height . . . . . 49
M. Ściążko (Zabrze, Poland), J. Raczek and J. Bandrowski (Gliwice, Poland)

Binary and ternary vapor–liquid equilibrium calculations for methyl chloride, dimethyl ether and methanol . . . . 57
H. Wogatzki and B. Gutsche (Berlin, F.R.G.)

BOOK REVIEW . . . . . 63

Influence of thermal boundary conditions on calcium carbonate fouling in double pipe heat exchangers . . . . . 65
H. M. Müller-Steinhagen and C. A. Branch (Auckland, New Zealand)

Vacuum contact drying of mechanically agitated granular beds wetted with a binary mixture . . . . . 75
H. Heimann and E. U. Schlünder (Karlsruhe, F.R.G.)

Counter-current absorption of oxygen by a frequency response technique . . . . . 93
P. Moravec and V. Staněk (Prague, Czechoslovakia)

Modelling of the collection of dust particles in plate-type electrostatic precipitators.
Part I. A physically based electrostatic precipitator model. . . . . 105
J. Petroll and H. Födisch (Merseburg, G.D.R.)

Part II. Hybrid model. . . . . 113
J. Petroll and H. Födisch (Merseburg, G.D.R.)

BOOK REVIEWS . . . . . 119

CORRIGENDA. . . . . 120

ERRATA. . . . . 120

Analytical and numerical studies of separated laminar two-phase flow in ellliptical ducts of arbitrary axis ratio . . . 121
J. Reza and H. Martin (Karlsruhe, F.R.G.)

A fast algorithm for three-phase distillation towers . . . . . 133
F. F. Y. Walraven, P. V. Van Rompay (Louvain, Belgium) and R. Luyten (Antwerp, Belgium)

Foam generation in a rotor–stator mixer . . . . . 145
A. B. J. Kroezen, J. Groot Wassink and E. Bertlein (Enschede, The Netherlands)

A new approach to the oxidation of *o*-xylene into phthalic anhydride in a fixed bed of vanadium–titanium catalyst . . . . . 157
V. Nikolov, A. Anastasov, D. Elenkov (Sofia, Bulgaria), G. Ganev and N. Dimitrov (Ruse, Bugaria)

Absorption of $CO_2$ and $H_2S$ in aqueous alkanolamine solutions using a fixed-bed reactor with cocurrent down-flow operation in the pulsing flow regime. . . . . 163
G. F. Versteeg and W. P. M. van Swaaij (Enschede, The Netherlands)

LETTERS TO THE EDITOR

Comments on 'Thermal conductivity of packed beds' . . . . . 177
A. G. Dixon (Worcester, MA, U.S.A.)

Reply to comments by Dixon . . . . . 177
E. Tsotsas and H. Martin (Karlsruhe, F.R.G.)

FORTHCOMING MEETING . . . . . 181

Determination of the free settling parameters of spherical particles in power law fluids. . . . . 183
K. Koziol and P. Glowacki (Poznań, Poland)

A computational design method for multicomponent condensation . . . . . 189
A. Burghardt and M. Berezowski (Gliwice, Poland)

 © Elsevier Sequoia/Printed in The Netherlands

Assessment of the role of thermally induced gas flow inhomogeneities in fixed bed reactors . . . . . 203
V. Staněk and P. Vychodil (Prague, Czechoslovakia)

Application of the 'Multivir' method to separation of droplets and solid particles from gases . . . . . 211
J. Kwasniak (Łodz, Poland)

Programmed cooling of batch crystallizers . . . . . 217
B. Mayrhofer and J. Nývlt (Prague, Czechoslovakia)

Mass transfer in liquid films during absorption.
Part I. Comparison of mass transfer models with experiments . . . . . 221
K. Kuthan and Z. Brož (Prague, Czechoslovakia)

BOOK NEWS . . . . . 233

CORRIGENDUM . . . . . 233

AUTHOR INDEX . . . . . 234

SUBJECT INDEX . . . . . 235

CONTENTS OF VOLUME 24 . . . . . 237
